

## Groom's Wedding Toasts to his Bride 4

As I lift this glass in a toast to my beautiful bride , we see that the glass is full. There may be times in our future (the bride ), when the glass is only half - full , but when those times come , they will , may the empty space be merely an opening , an opportunity to fill our lives with ever greater hope. To our glorious future together as husband and wife. May our lives always be filled with joy even when our glasses are only half-full.
